The Red Cross and the Tuberculosis Campaign

(Weekly Health Talk No. 40)
(Frank W. LeClere, Utah Public Health Association)

The Red Cross is conducting a great fight on tuberculosis throughout the nation. Every Red Cross Chapter has received a letter from the national headquarters of the Red Cross urging their full co-operation with the anti-tuberculosis organizations and explaining the relations between these organizations and the Red Cross. This anti-tuberculosis work of the Red Cross is carried on through the National Tuberculosis Association and its affiliated organizations, in the state the Utah Public Health Association.

The tuberculosis societies are supported largely by the Red Cross Christmas Seals. These seals were first published by the Red Cross in 1908. They originated with Miss Emily P. Bissell, a nurse of Wilmington, Delaware. The Red Cross agreed to furnish the seals and give the cause its moral backing and general supervision but delegated the management of the sales and the expenditure of the proceeds to the National Tuberculosis Association and its affiliated state and local societies. The Red Cross, however, defines the uses to which this money shall be put and annual reports are made to it by the various bodies, showing how this money is expended and what is being accomplished. A small percentage of all the proceeds is paid into the treasury of the Red Cross.

Since the Red Cross Seals first appeared in 1908, more than five million dollars have been raised by their sale and devoted to this great work. Last year more than one million dollars was realized. This year the slogan adopted by the Red Cross and the Tuberculosis Societies is, "You must buy three times as many this year because war increases tuberculosis." Every Chapter and every member is urged by National headquarters to help make this slogan an accomplished fact. With such a fund a magnificent drive against man's most dreaded enemy, the white plague, will be possible.

Senator Smoot's Amendment

To Senator Reed Smoot, of Utah, the thanks of 300,000 widows and their children and kin are due and will be given with a spontaneous earnestness that comes from the fullness of the heart. Senator Smoot, who is one of the most forceful and influential men in the senate, went at this matter of increasing pensions of civil war widows with an earnestness and determination that would not accept rebuff or failure. He has always been a real friend of the veterans and their widows, and they are under deep obligations to him for his constant and effective services in the past.

Section 314. That from and after the passage of this Act the rate of pension for a widow of an officer or enlisted man of the Army, Navy, or Marine Corps of the United States who served in the Civil War, the War with Spain, or the Philippine Insurrection, now on the pension roll or hereafter to be placed on the pension roll, and entitled to receive a less rate than hereinafter

provided, shall be \$25 per month; and nothing herein shall be construed to affect the additional allowance provided by existing pension laws on account of a helpless child or child under sixteen years of age: Provided, however, that this Act shall not be so construed as to reduce any pension under any Act, public or private: And provided further, that the provisions of this section shall be administered, executed, and enforced by the Commissioner of Pensions.—Passed by the Senate and House of Representatives and approved by the President.
October 6, 1917.

Deweyville

J. W. Spaekman, who has been ill with rheumatism for some time, is not much improved at this writing.

Mrs. James Wardleigh and children of Ogden, are visiting at the home of Mrs. Wardleigh's sister, Mrs. D. B. Marble.

Joseph Heusser visited Brigham City last Saturday, returning Sunday.

Asa Eggelston, who has been in Idaho for some time, is home again.

Mrs. Amasy Rubby is visiting her sisters, Mrs. Geo. Dewey and Mrs. Cinda Watters.

Clara Chidester of Holbrook, Idaho, is visiting relatives here.

The Relief Society will have a bazaar November 20th.

J. L. and Victor Burbank went to Weston, Idaho, Sunday and returned Monday.

Some of our young ladies are working at the canning factory in Tremonton.

There are a few cases of chicken pox in our community.

John Knudsen is still quite ill.

S. B.—Nov. 11th.

scouring plant at Salt Lake.

First batch of 65,000 pounds open-hearth steel poured at Midvale plant.

Eureka—Zuma mine is now equipped with electric light and power.

Ogden—Coal now \$7.25 per ton at Ogden yards. Advance due to increase granted fuel men and miners by government.

National legislation permitting development of western water powers to fullest extent would save more coal and oil than all the conservation theories ever advanced, and yet congress fails to act.

Brigham City to have new light plant.

Helper—Utah Power & Light Co. extending lines at this point to serve the shops of the D. & R. G. R. and Utah Railway companies.

Ogden—Holly Milling Co. plant costing \$250,000 now in operation.

Ogden—Apple crop hard hit by early frosts. Farmers urged to study planting crops next year so as to harvest as near as possible with local help.

Food administrators in the western beet sugar producing states are receiving letters from farmers urging that an effort be made to import Mexicans, Japanese and negroes next spring for the big crop productions. They declare, almost to a man, that unless some such hope is given them, next year's sugar crop will be decreased instead of increased over 1917 returns.

Utah oil shale is attracting attention of outside capital.

Tremonton—Twenty rooms to be added to Midland hotel.

Springville—Work on sidings and sugar factory started here.

With unlimited supplies of wood fuel in the forest reserves there is little excuse for a coal famine. It is another illustration of our fish conservation policies, that saves wood and water power to burn coal and oil.

Lynn—Big Six mine sending out gold bars of \$300 to \$700 each. Owing to labor conditions lead at \$8 is no more profitable than formerly at \$5.50, and many lead mines are shutting down.

Farmer members of the Non-Partisan League are beginning to ask what is being done with the \$16 fee. If 20,000 are enrolled, \$320,000 would build a lot of elevators and warehouses.

Pulverized limestone is a new

industry. Annual demand over a million tons.

Salt Lake—Exhaustive survey to be made of phosphate fields in inter-mountain region.

Salt Lake—\$50,000 syndicate to be organized here to exploit Wyoming oil fields. To be backed by substantial interests.

With the sale of every commodity from the humble egg to the monster automobile, advanced from 50 to 75 per cent, the 15 per cent advance in rates asked by the railroads looks small.

Late Locals

A fine son arrived at the home of Mr. and Mrs. Walter Checketts of North Elwood Thursday evening of this week.

E. T. Capener of Salt Lake, is here to-day (Friday)

FOR SALE—Two Fresh milk cows. Garrett & Richards, Garland, Utah. It-adv.

Garrett & Richards shipped to Ogden and Salt Lake one car of cattle and a mixed car of cattle and hogs from Malad last week. The hogs topped the market for price. This week the firm shipped out of Garland a car of cattle and hogs that brought good prices.

Bishop L. H. Kennard's place in Riverside was the scene of an exciting episode Thursday when his cow walked down the cellar steps and devoured and ruined a lot of apples, potatoes and other vegetables. The town folk turned out with ropes, block and tackle, etc., to hoist the cow from the cellar, but while they were getting ready to pull off the "sub-marine stunt," the critter deliberately walked back up the steps with a look that expressed—"Well, I guess you won't pull none of them stunts off on me." If you don't believe it, ask Jim Bigler.
